

• Novus Proven Applications: Point-of-Sale

Challenge - There are many point-of-sale hardware display options for merchants to choose from but most are bulky and cumbersome to use. And when technology changes, the entire framework needs to be replaced.

Solution - Novus RetailSystem offers an innovative, modular solution that elevates all point-of-sale hardware to create a user-friendly retail experience. Customize payment terminals with a wide variety of mounts, support arms, and plates for all current POS devices, replacing only individual components when technology changes.
