Warranty	5 years
MSRP	\$459

A Closer Look

The TSS series of monitor arms, accessories, and complete sets are designed to create comfortable, functional workstations. From control rooms to offices, TSS offers unlimited workstation possibilities and long-lasting durability.

ENHANCE COMFORT

Reduce neck, back, and eye strain with ergonomic adjustments. Full-motion monitor arm joints and a rotating Quick Release monitor mount make it easy to find the most comfortable position.

MORE SPACE

To maximize limited desk space, TSS elevates monitors off the desk surface. This helps create a more organized, efficient workstation.

CUSTOM WORKSTATIONS

The modular design is perfect for building custom workstations from single desks to complex monitor banks in any work environment.

ENGINEERED FOR DURABILITY

These German engineered monitor arms are constructed of aluminum for strength and durability in busy work environments. Aluminum also provides a smooth, modern finish that complements any workspace.

Enhance Ergonomic Comfort

Adjust to your personal ergonomic profile to prevent neck, back and eye strain.

Perfect Alignment

Position 2 monitors for perfect side-by-side viewing.

Engineered for Durability

Aluminum construction offers long-lasting performance in busy environments.
