

Novus LiftTEC® IV sw

Monitor Arm w/SlatWall adapter

LiftTEC® IV sw lifts a monitor off the desk surface to enhance ergonomic comfort and create more useable space. Designed to mount on a Novus SlatWall, it features smooth gas spring movement, aluminum construction for strength, and integrated cable management for a neat appearance.

- Enhances comfort by elevating a monitor to your ideal viewing height
- Improves ergonomics by easily adjusting the monitor's height, angle, and distance
- Increases available workspace by folding the monitor out of the way when not in use
- Easily rotate monitor from portrait to landscape or share screen during collaboration
- German engineered for durability in busy work environments
- Integrated cable management hides wires and provides a clean, organized look

Base Mount	SlatWall Adapter
Warranty	2 Years
MSRP	\$449

A Closer Look

LiftTEC® Arms lift monitors off the desk surface to enhance ergonomic comfort and create more useable space. They feature smooth gas spring movement, aluminum construction for strength, and integrated cable management for a neat appearance.

ENHANCE COMFORT

Reduce neck, back, and eye strain with ergonomic adjustments. Smooth gas spring movement, full-motion joints, and a rotating Quick Release monitor mount make it easy to find the most comfortable position.

CREATE MORE SPACE

To maximize limited desk space, LiftTEC® Arms elevate monitors off the desk surface. This helps create a more organized, efficient workstation.

ENGINEERED FOR DURABILITY

These German engineered monitor arms are constructed of aluminum for long-lasting durability in busy work environments. Aluminum also provides a smooth, modern finish that complements any workspace.

Enhance Ergonomic Comfort

Adjust to your personal ergonomic profile to prevent neck, back and eye strain.

Seamless Movement

Find your perfect view effortlessly with flexible joints and gas spring support.

Integrated Cable Management

Guide cables along the arm for a neat appearance.
